

ISO 8714:2002, Electric road vehicles - Reference energy consumption and range - Test procedures for passenger cars and light commercial vehicles

This International Standard specifies test procedures for measuring the reference energy consumption and reference range of purely electrically propelled passenger cars and commercial vehicles of a maximum authorized total mass of 3 500 kg and maximum speed greater than or equal to 70 km/h.

Norsk tittel: Electric road vehicles Reference energy consumption and range Test procedures for passenger cars and light commercial vehicles. Engelsk ISO 8714:2002 Electric road vehicles - Reference energy consumption and range - Test procedures for passenger cars and light commercial vehicles This Reference number. ISO 8714:2002(E).
