

The Bat Scientists (Scientists in the Field Series)

Rich with fascinating information and photographs. Horn Book Dr. Merlin Tuttle is fascinated by bats, with good reason. Bats fly the night skies the world over, but are the least studied of all mammals. As the major predator of night-flying insects, bats eat manypests. But bats are facing many problems, including a scary new disease. White-nose syndrome is killing millions of bats in North America. Dr. Tuttle and his fellow bat scientists are on the front line of the fight to save their beloved bats. This edition features updates with the most recent information about WNS.
