

If My Mom Were A Platypus: Mammal Babies and Their Mothers (Hebrew Edition)

All mammal mothers feed, protect and teach their young—tasks that often challenge their own needs for survival. All mammal babies must learn how to feed and protect themselves. The fascinating introduction to the world of mammals reveals how fourteen mammal babies travel the path from helpless infants to self-sufficient adults.

A Platypus Media favorite now available in Hebrew! All mammal mothers feed, protect, and teach their young, even though these tasks can challenge their own.
