

Modelling Molecules and Crystals with CHONX STIX

There are many benefits of using magnetic CHONX STIX to learn about various molecules and crystals. With CHONX STIX, atoms are given characters with characteristics that represent their properties. Bonds between atoms are analogous to the holding of hands between people. This approach allows you to remember the properties of atoms. This makes molecules into a family of atoms bonding with each other analogous to bonds people make. This approach that only CHONX STIX provides makes it easier to understand and remember the bonds within molecules and crystals.
