

Sean Connery: A Biography

Sean Connery has been more bankable at the box office over the last few years than he ever was as the thirty-year-old James Bond. But the man himself remains something of a mystery: extremely attractive and intensely private and, according to many, unforgiving. Michael Freedland's biography is the first detailed search behind the brogue and the bravado. Drawing on interviews with over a hundred people who have known and worked with Connery, the author charts an extraordinary life from his childhood in Edinburgh and his earliest working days in a steel mill to the feted superstar of today.
