

Nature Undercover - Hunters and Prey

Sit on a branch and spy on a chameleon catching its next meal with its sticky tongue. Soar with seagulls and witness them narrowly escaping a great white shark. Sneak up on tortoise eggs and witness the young use their egg teeth to break through the shells and hatch. In Nature Undercover, incredible illustrations offer you the chance to get a perspective on nature that you can't get with any camera. Each piece makes the reader feel as if you are actually there, witnessing the animals in their private lives. Detailed spreads offer a wealth of information on all the aspects of animal life that make nature so awe-inspiring. These volumes include: Full color throughout Index Resources for further study
